

Functions of the mobile application

How to input and edit client data using the mobile application?

Steps to Update Client Data:

1. Access the tab:

- In the main menu, select the "**Inspection List**" tab.

2. Select an inspection:

- From the inspection list, click on the desired entry whose data you want to edit.

3. Enter edit mode:

- On the inspection details screen, find the blue (**'menu'**) button in the bottom-right corner.
- Click the button and select the option "**Edit client data.**"

4. Edit the data:

- A page with input fields will open.
- Enter or update the client data as needed.

5. Save changes:

- After making changes, click "**Save.**"
- The data will be automatically updated in the voxCRM system.
